2026

Town Square Park construction continues to make progress, with work now underway on the new restroom facility just north of the Cherry Hill Schoolhouse. The bathroom complex has officially started, while crews continue earthwork throughout the project area. Sewer and stormwater connectivity work is also progressing as construction moves forward. A temporary fence remains in place between the park project and the Schoolhouse to enhance safety and clearly separate the work areas. We appreciate the community's continued patience and look forward to sharing additional updates as the project progresses.

The Factory Building is nearing completion, with crews focused on final punch-list items throughout the building. With construction wrapping up, the project is moving toward occupancy soon. We're excited to be getting closer to opening the doors and welcoming the community into this new space. Stay tuned for more details and an opening announcement!

Locally family-owned and operated dentistry, Heritage Dentistry takes pride in providing detailed diagnoses and compassionate treatment to each patient. They accept all major insurances and Medicaid.
